

Open Position

TITLE: Laboratory Genetic Counselor
JOB NUMBER: 1201GenCounselor

Serves as the primary point person for clinical/scientific questions related to testing offered by CombiMatrix, providing high-level scientific review of laboratory results, and working with the Director of Genetic Counseling Services to expand CombiMatrix's Result Support Program. As a laboratory genetic counselor, there will be opportunities to participate in publication of collaborative studies, national scientific meetings, the design and implementation of professional education activities, and marketing initiatives.

LICENSE(S)/CERTIFICATION(S):

- Masters Degree in Genetic Counseling
- ABGC Board Certification (or equivalent board, e.g. ABMG, CAGC)
